Hey Gang!

"Ann's not here right now, but maybe I could help you?" Actually, Ann's been a mighty busy woman these days and she's decided her many sundry obligations will preclude her continuing as music director. And thus I've found myself in her stead.

Some of you may remember me from the summer, when I served as surrogate MD and director of jazz programming. Bryce Burkhart's the name, and New Music is the game. Oh to be MD, if even only intermittently! The smell of new vinyl, a station ID, a stack of new records just waiting for me; the drop of the needle, a song on the air, imported albums so fine and so rare; the sound of Johnny Lydon belching before he sings--aahhh yes, these are a few of my very fave things!

But enough about me. One word for the playlist--humungous. This baby is cumulative way back to middle of November or so, which explains the size. That and the fact that we have been swamped with so many fab releases. More imports, too, thanks to Rockpool, Of Factory, Thirsty Ear, Side One and others. A lot of good 7" single action as well (though not reported here, look for it in later 'lists). Tunes playing in my head these days: "Architecture" by the Cuts, Deja Voodoo's "Cheese and Crackers," "Why Don't They Leave Things Alone?" by Blancmange, Zappa's "Porn Wars," "A Gift And A Promise" by the Last Gentlemen, "T-Bone Shuffle" by Albert Collins and Co., and "Hallelujah: The Be Gone Devil Beat" by Run Girl Run.

Office hours at WXDU are still 3:00 to 5:00 PM weekdays. The office number is: 919 684-2957. If I'm not there, I'm sure one of illustrious music staffers will be able to help you. Our request line is 919 684-8870/8871; call up to ask the DJ to play one of your songs or to leave a message for me. Also, please don't mail records to us by UPS if you can help it; we often miss their courier and their office is all the way across town--I'm not saying it's not worth the trip, mind you, but our preferred address is at the top of the page. Thanks!

Best Wishes For The New Year.

Bryce
